Re: Grant No. 3027

Dear Dr. Verma:

The Scientific Director and CTR's staff have discussed your request for partial support of the FEBS Course on Oncogenes and Growth Control to be held in Moscow from June 17-20 and in Kiev from June 24-27, 1991.

Ordinarily The Council does not support instructional courses, but in this instance we feel the importance of the mission and the quality of the faculty are both so high, we would like to offer at least token assistance. I therefore am happy to tell you that we will make a contribution of $500.00 to help defray the costs of the program. A check for that amount is enclosed with this letter. It would assist in our record-keeping if we could have a short written acknowledgement of the contribution.

We request only that these funds not be used to reimburse expenses incurred by participants from the industrial sector.

Sincerely,

Harmon McAllister
